

Appendix B

IRI and PI Relationships for PCC Pavements

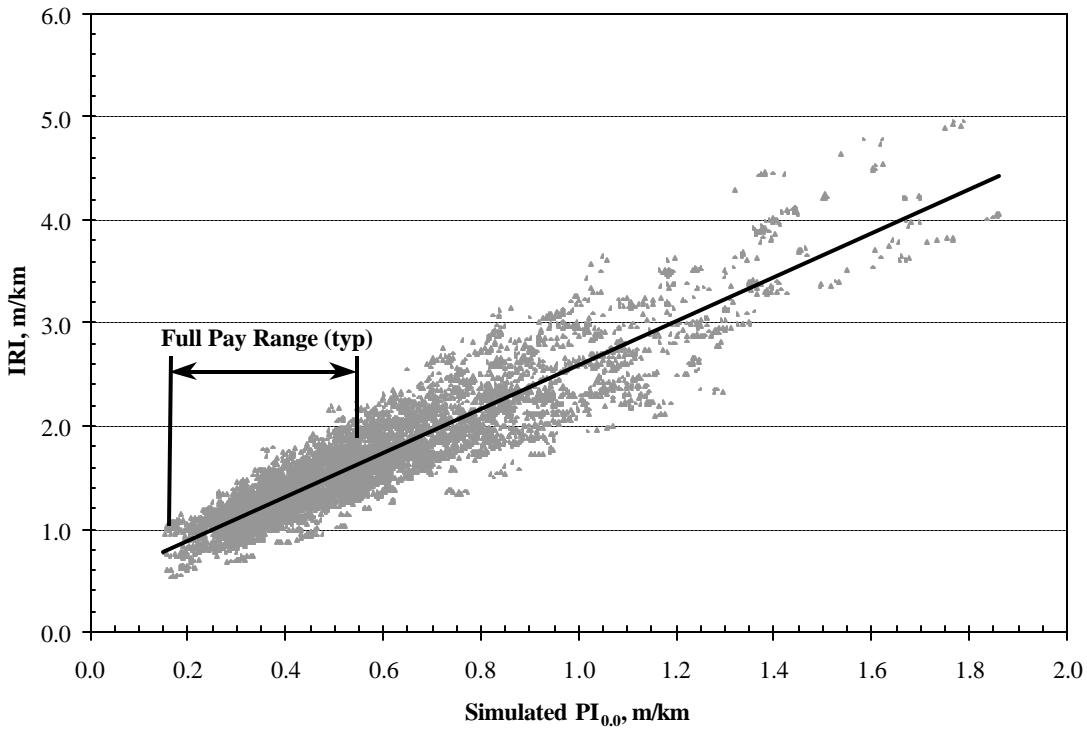

Figure B-1. IRI vs. PI_{0,0} for all PCC pavement types and climatic zones.

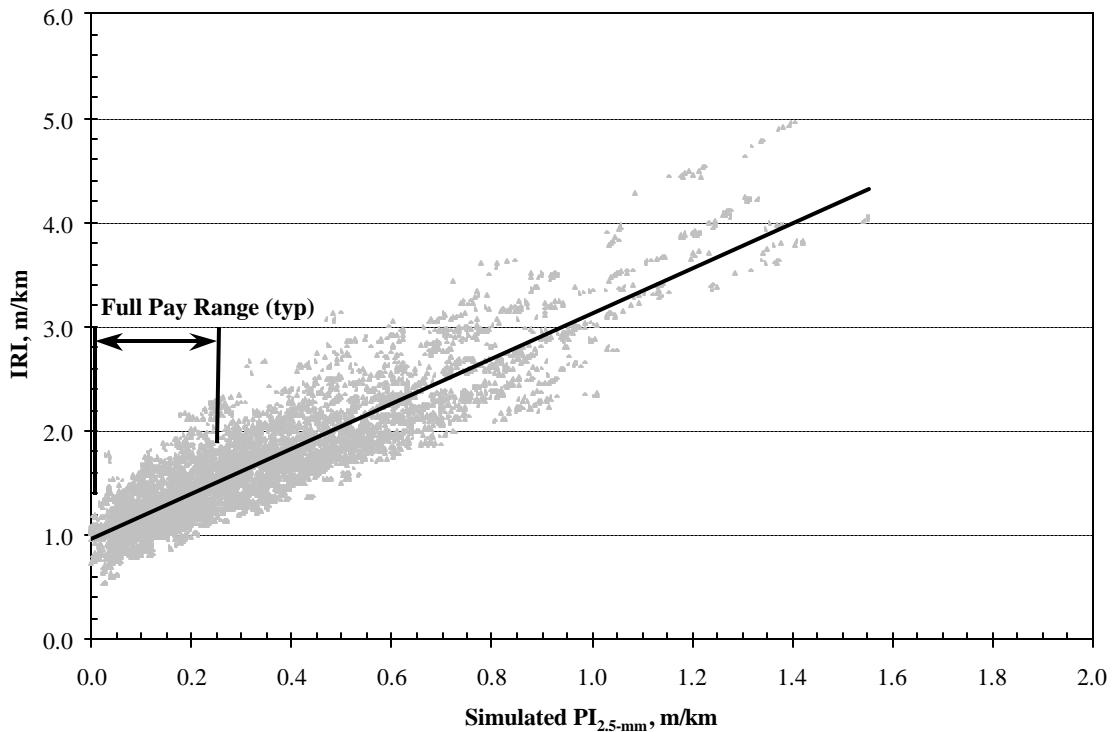

Figure B-2. IRI vs. PI_{2.5-mm} for all PCC pavement types and climatic zones.

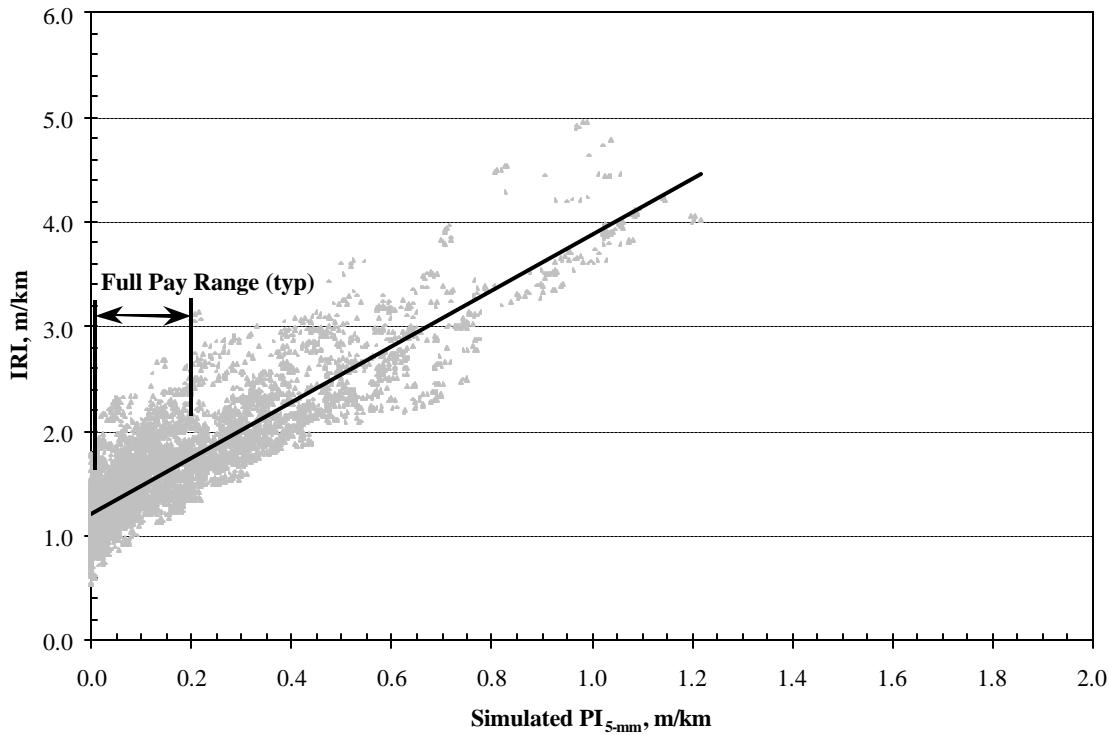

Figure B-3. IRI vs. PI_{5-mm} for all PCC pavement types and climatic zones.

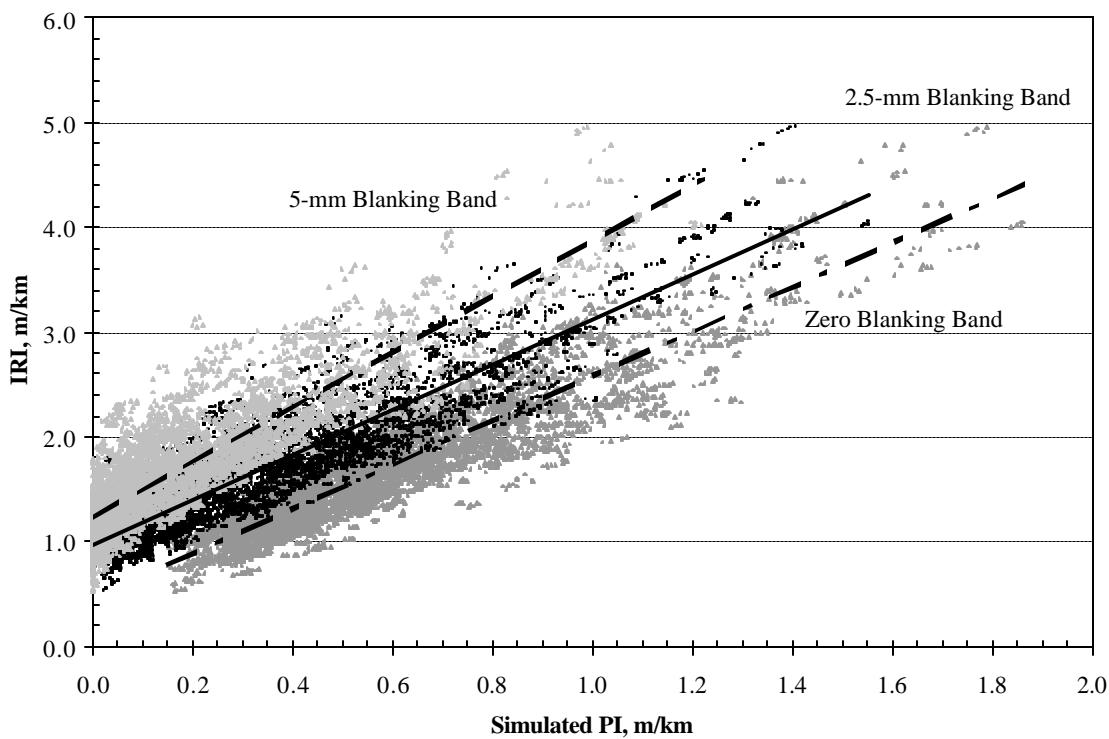

Figure B-4. IRI vs. PI_{0.0}, PI_{2.5-mm}, and PI_{5-mm} for all PCC pavement types and climatic zones.

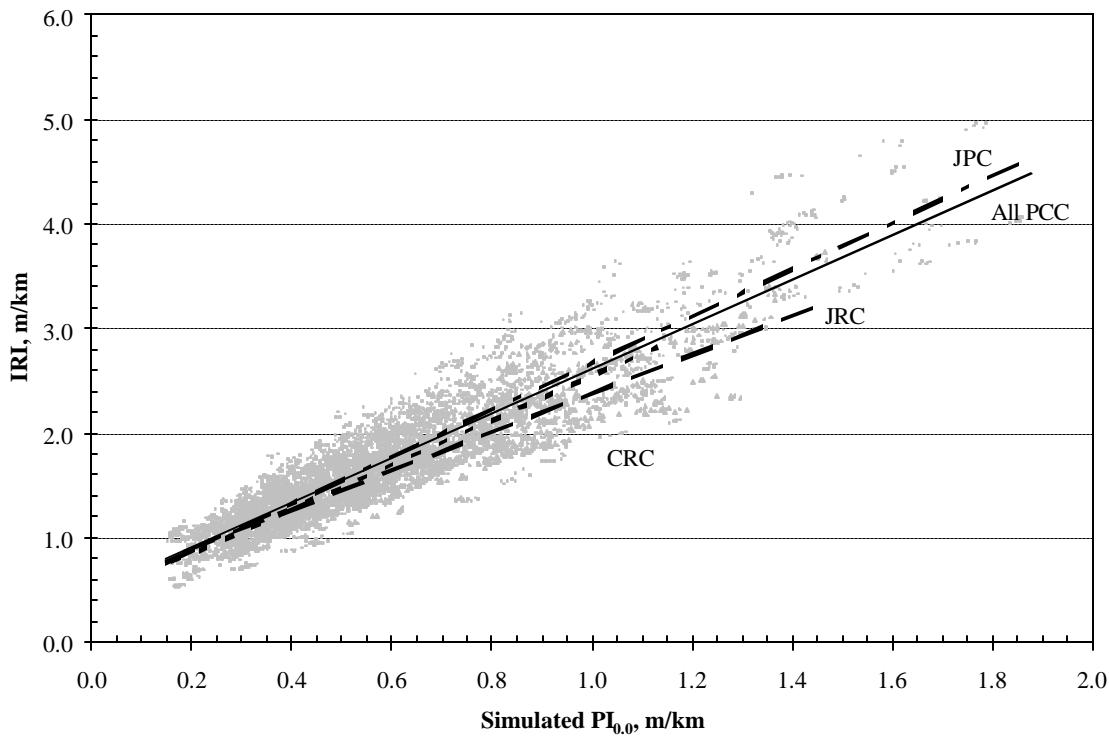

Figure B-5. IRI vs. PI_{0,0} by PCC pavement type for all climatic zones.

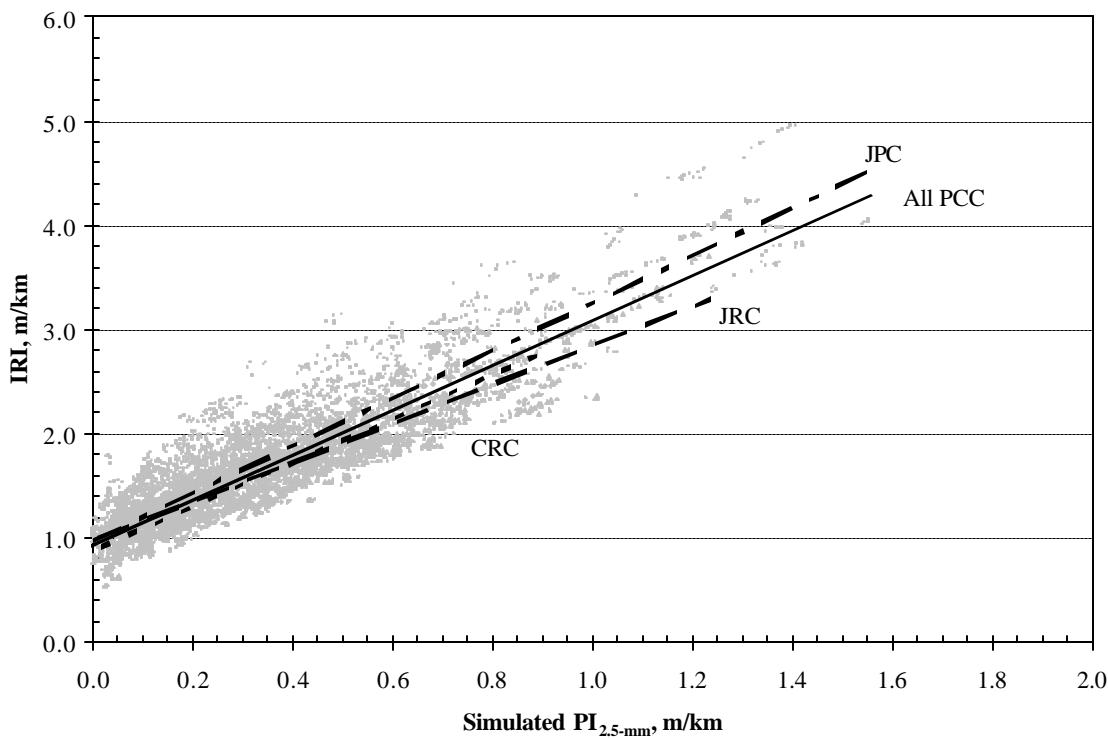

Figure B-6. IRI vs. PI_{2.5-mm} by PCC pavement type for all climatic zones.

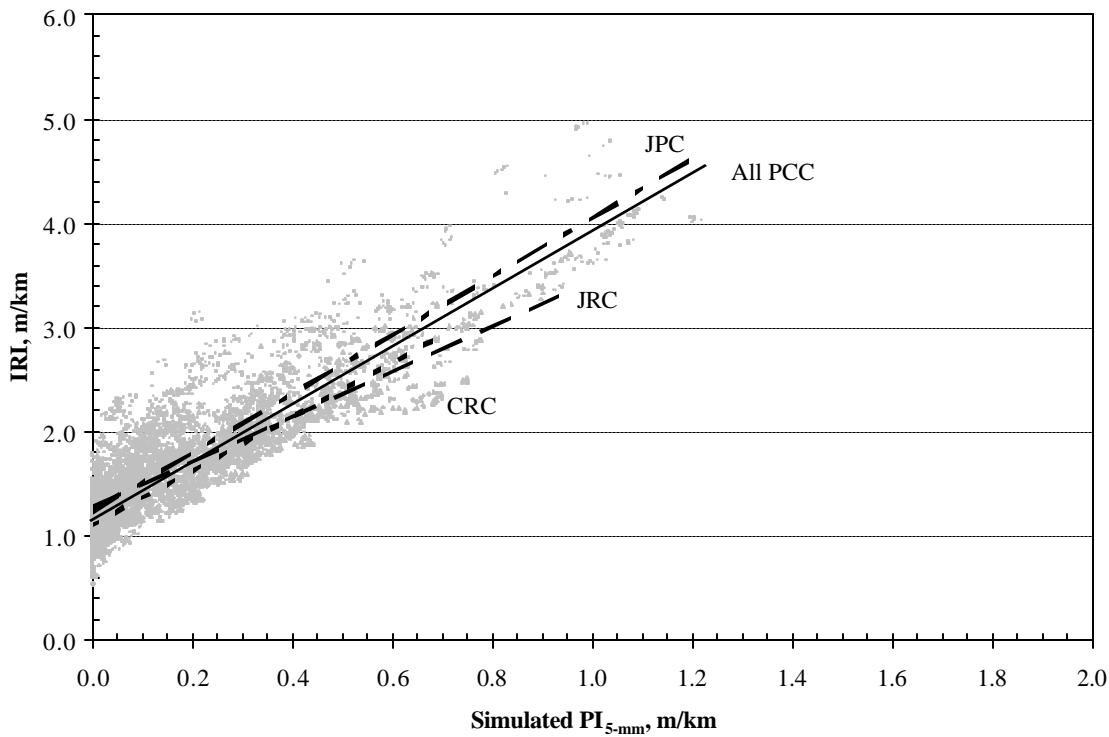

Figure B-7. IRI vs. PI_{5-mm} by PCC pavement type for all climatic zones.

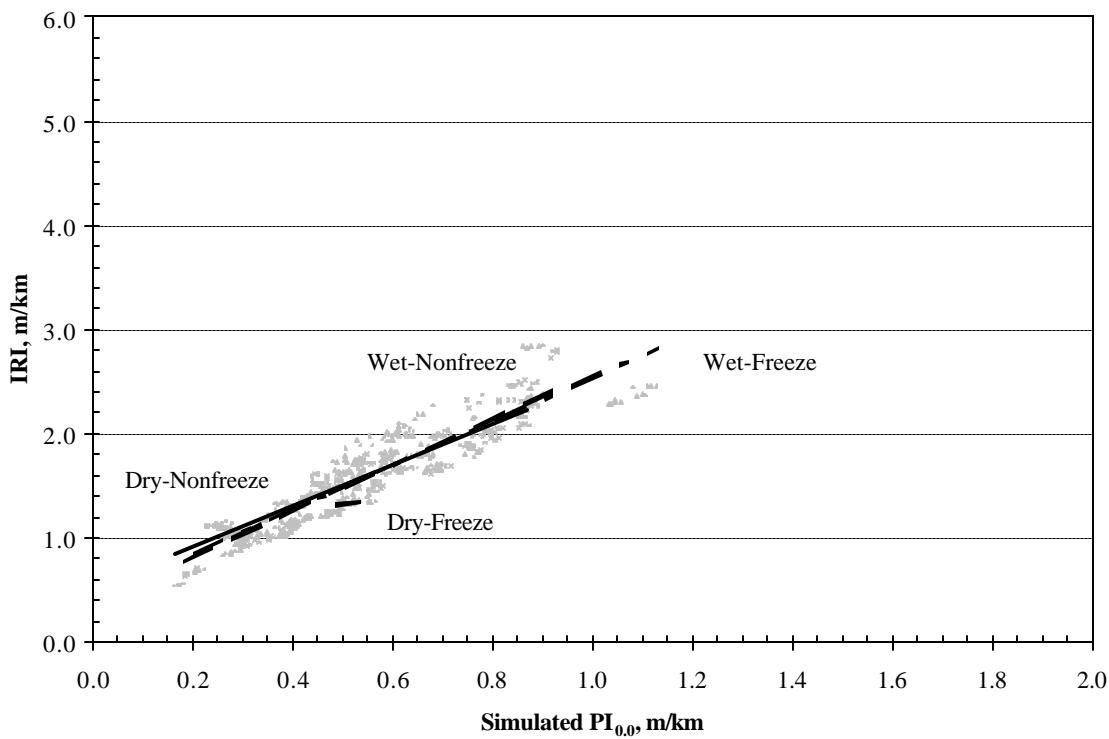

Figure B-8. IRI vs. PI_{0.0} by climatic zone for CRC pavements.

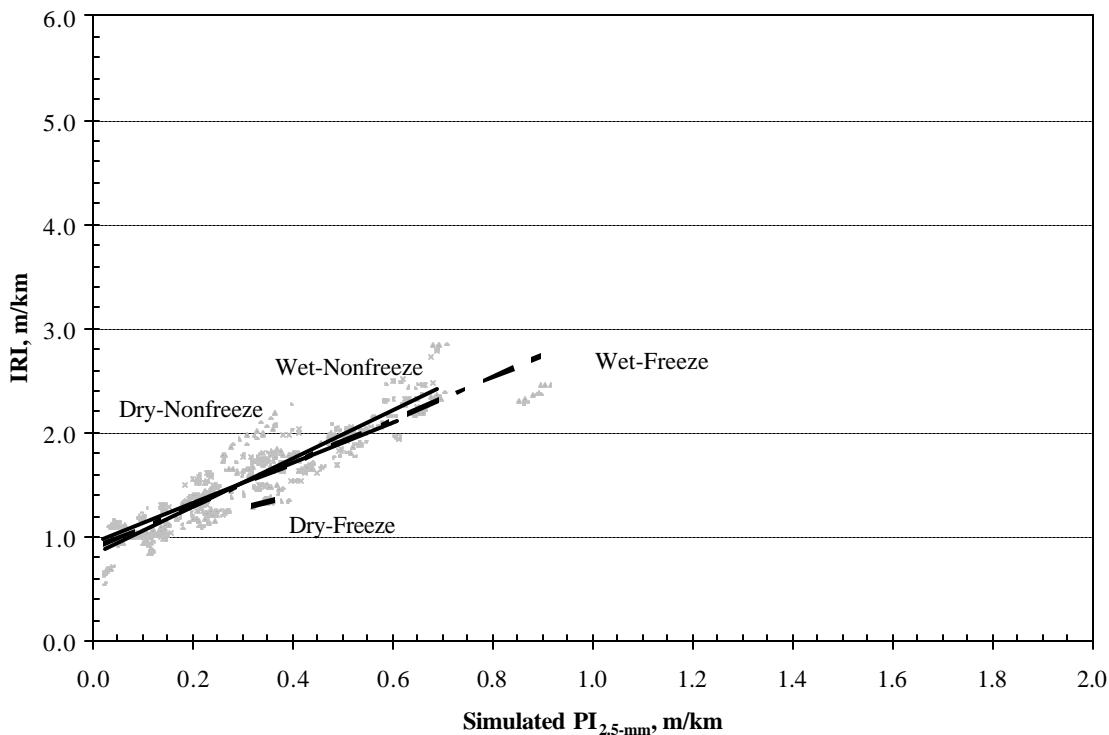

Figure B-9. IRI vs. PI_{2.5-mm} by climatic zone for CRC pavements.

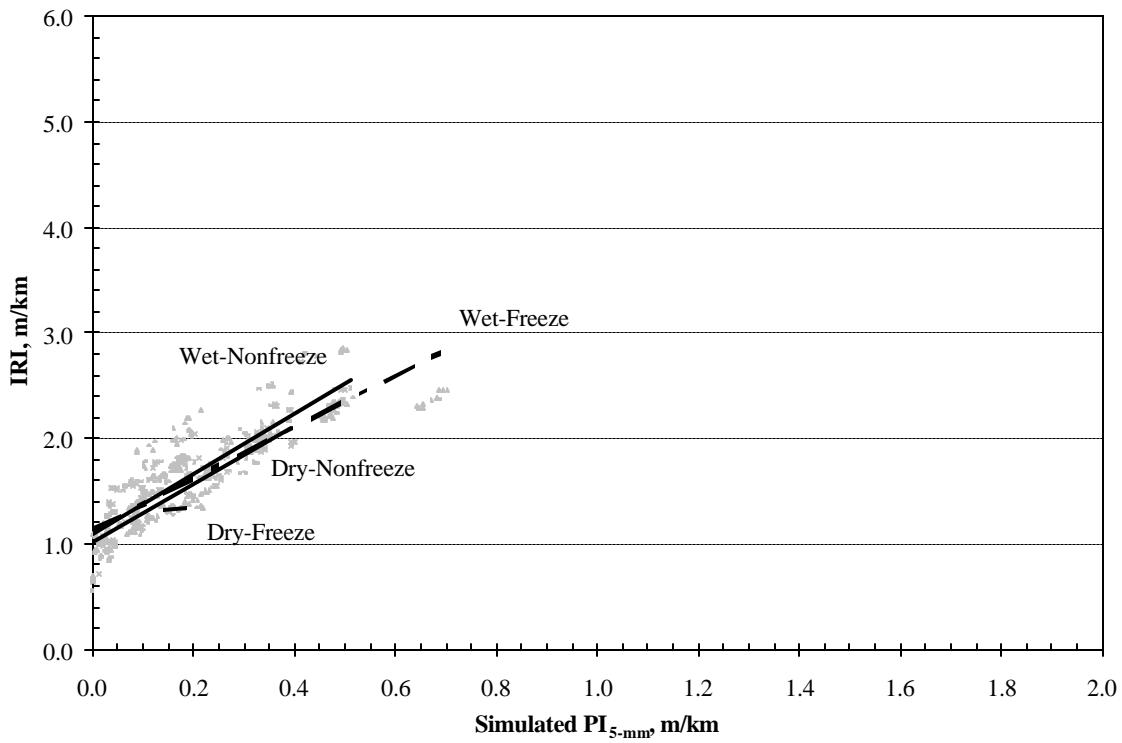

Figure B-10. IRI vs. PI_{5-mm} by climatic zone for CRC pavements.

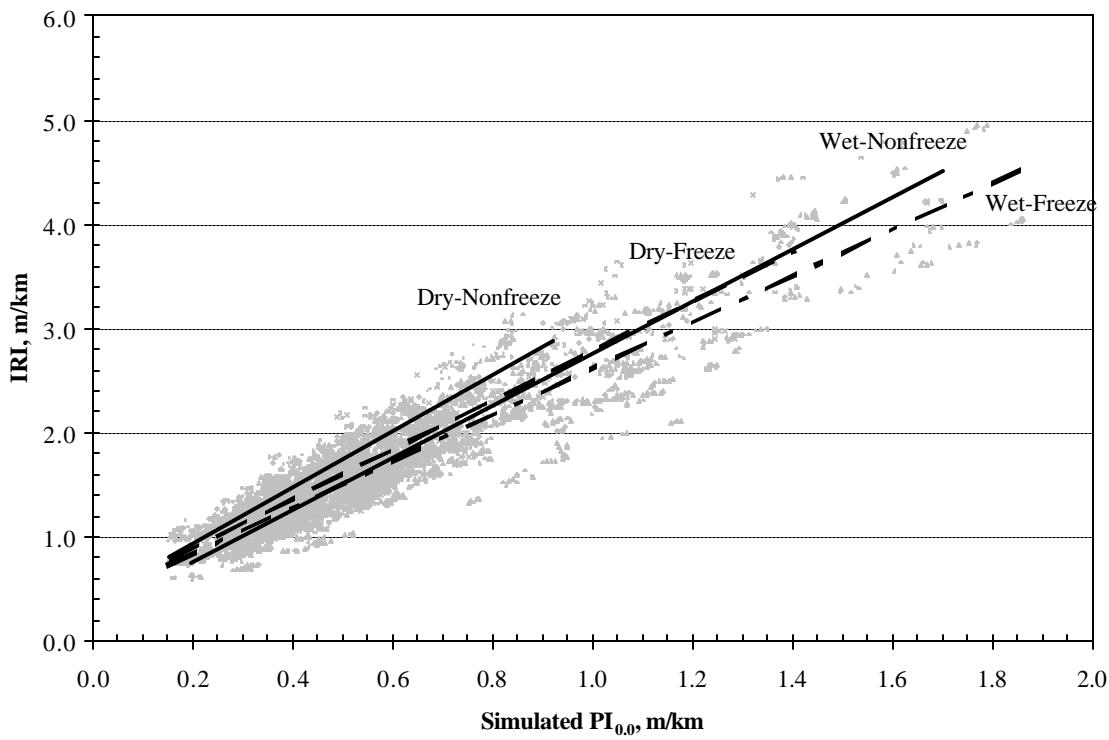

Figure B-11. IRI vs. PI_{0.0} by climatic zone for JPC pavements.

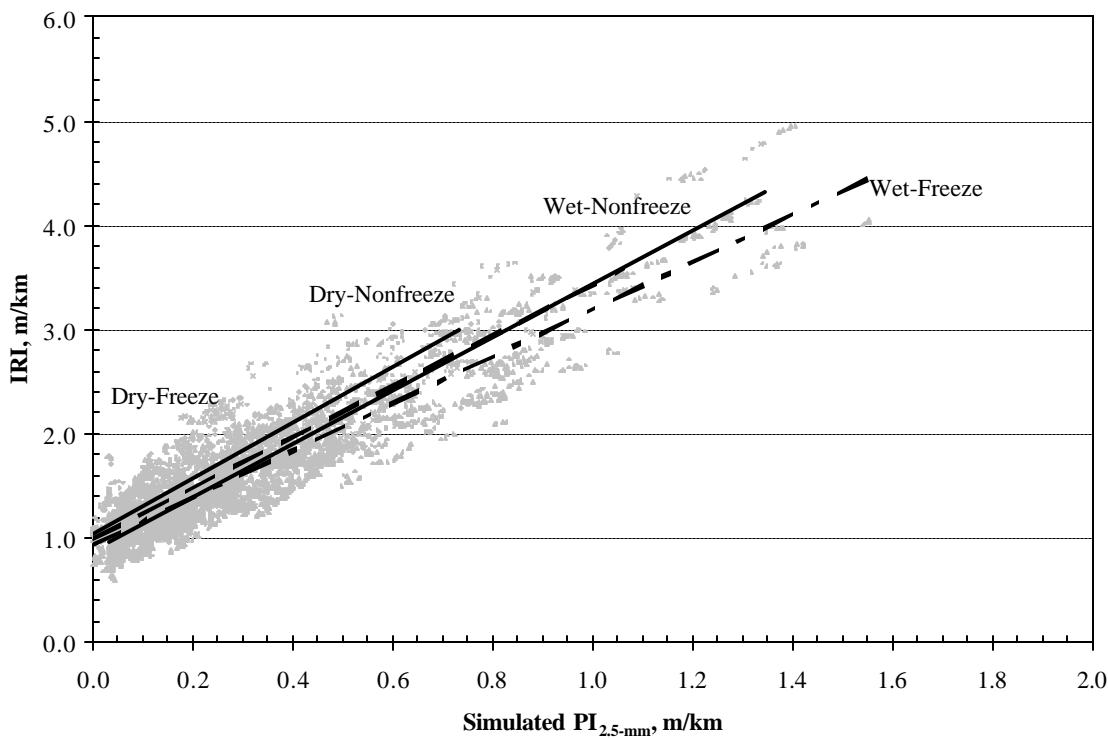

Figure B-12. IRI vs. PI_{2.5-mm} by climatic zone for JPC pavements.

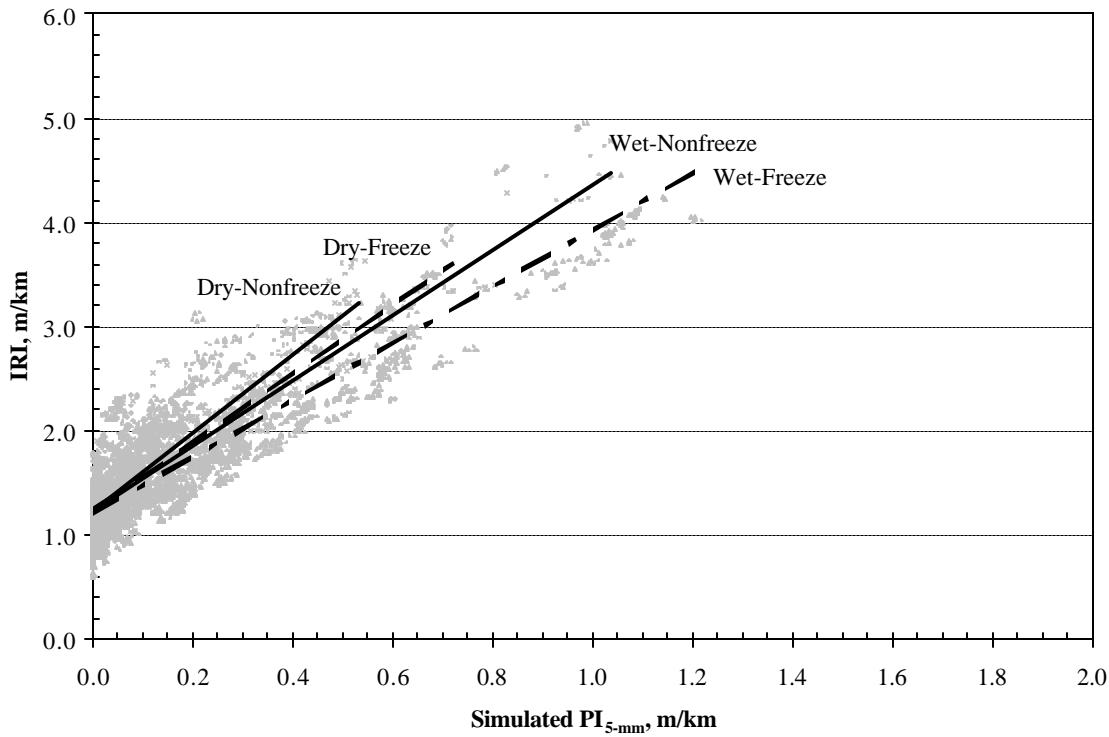

Figure B-13. IRI vs. PI_{5-mm} by climatic zone for JPC pavements.

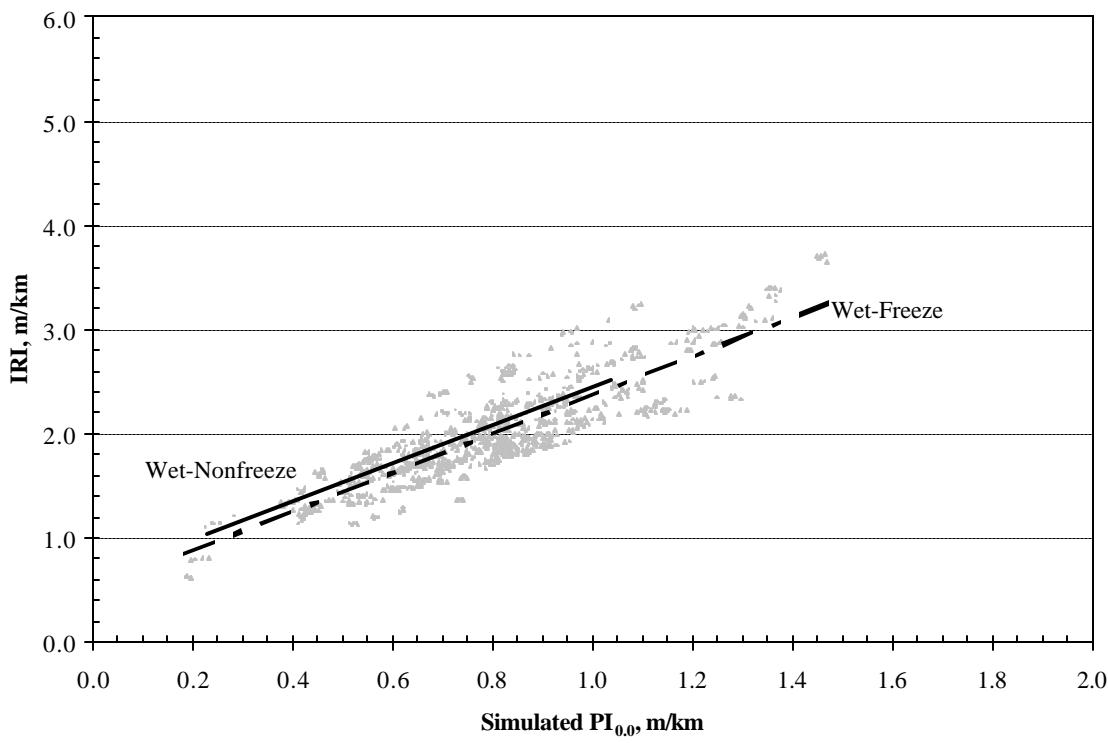

Figure B-14. IRI vs. PI_{0.0} by climatic zone for JRC pavements.

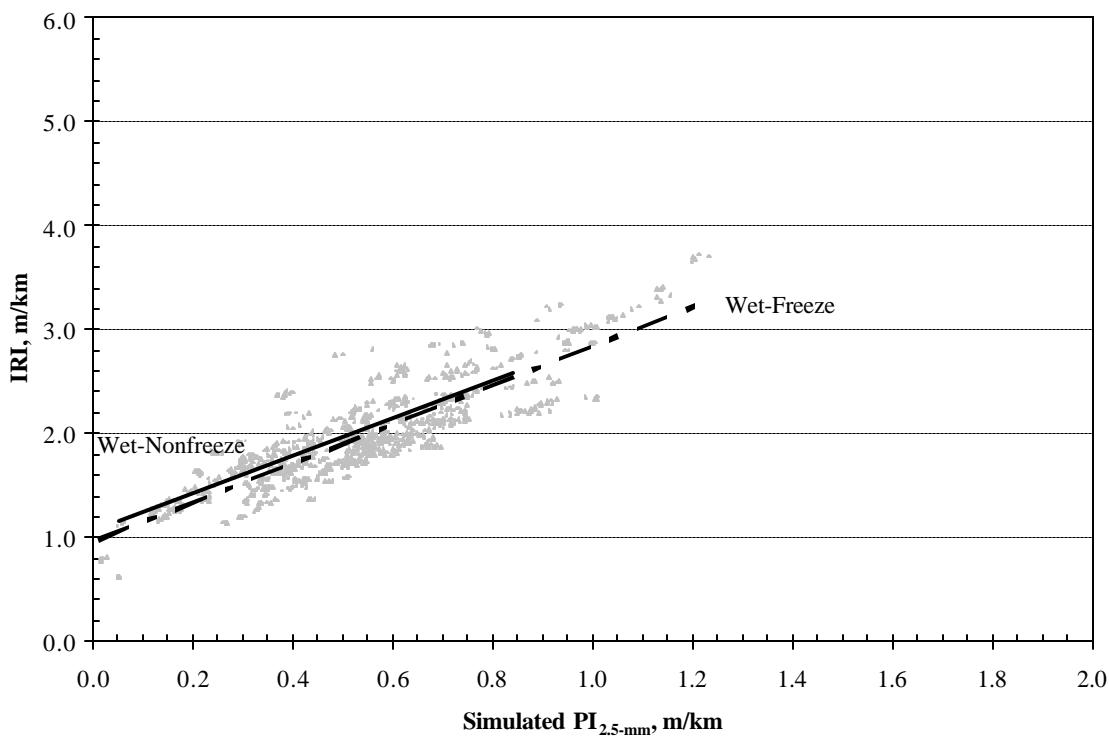

Figure B-15. IRI vs. PI_{2.5-mm} by climatic zone for JRC pavements.

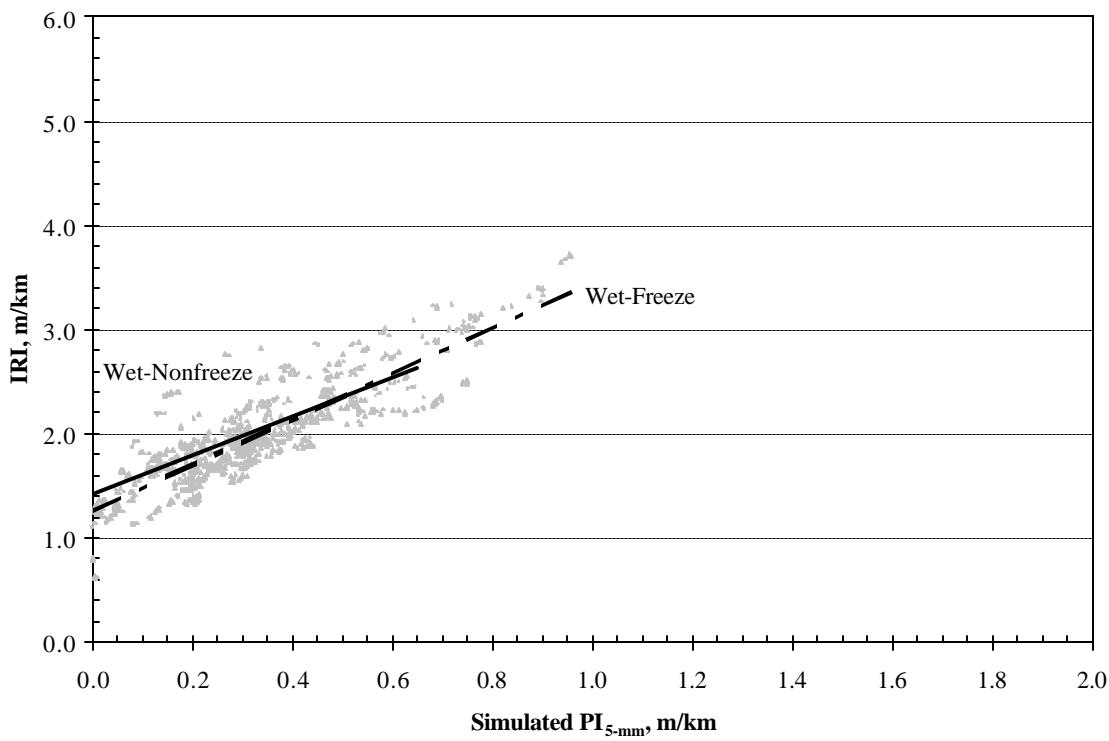

Figure B-16. IRI vs. PI_{5-mm} by climatic zone for JRC pavements.

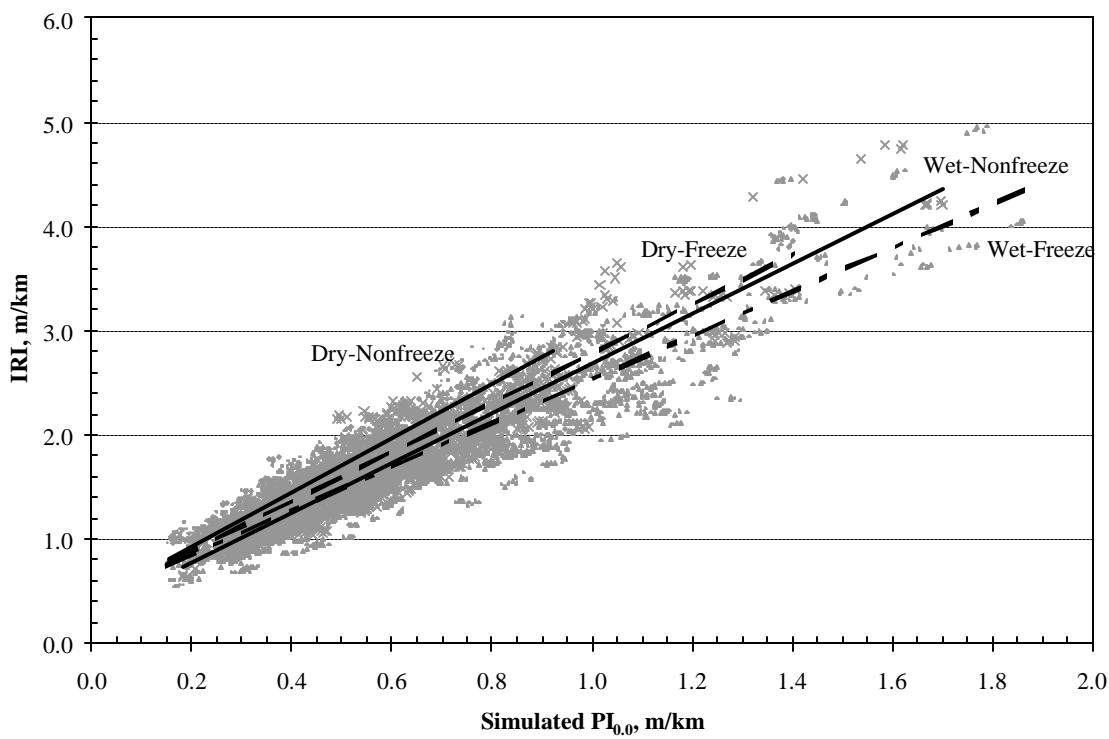

Figure B-17. IRI vs. $\text{PI}_{0.0}$ by climatic zone for all PCC pavement types.

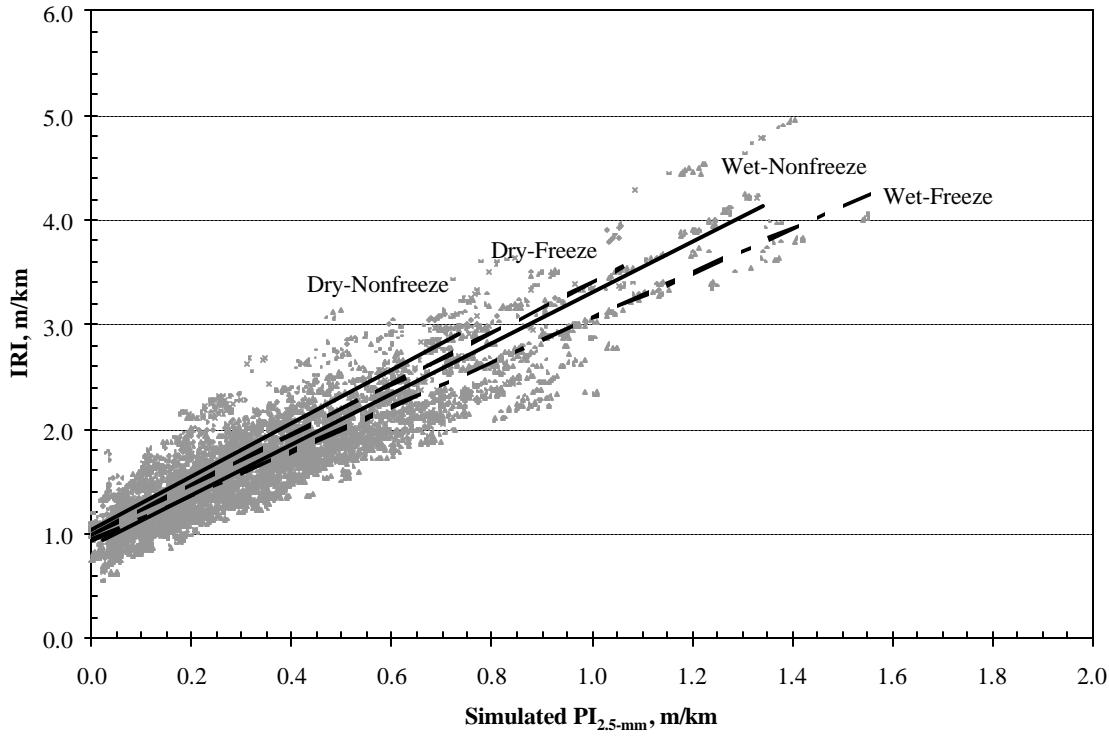

Figure B-18. IRI vs. $\text{PI}_{2.5\text{-mm}}$ by climatic zone for all PCC pavement types.
